

Late Life Luxury

43' Wide Beam Cruiser Stern

£92,500

This is a great opportunity to acquire a relatively uncommon but very manageable size in the wide beam world, ideal for someone who wants to cruise the wide canals and rivers of the UK, Ireland or even continental Europe. Built as a sailaway by Dave Clarke Boats, Newark in 2019, the fit-out was interrupted a couple of times during 2020 and 2021 due to the COVID-19 pandemic, initially at Shardlow Marina and then the boat was transported to Ely in July 2021 where it was completed by the second owner. Now in the hands of its third owner, Late Life Luxury is available to purchase as they are buying a smaller narrow boat for single-handed cruising. The hull was re-blackened and new anodes fitted April 2024.

Viewings are available 7 days a week by prior appointment please.

BSC	08/05/2025
Builder	Dave Clarke Narrowboats
Model	43' Wide Beam Cruiser Stern
Year	2019
