

Orca Porca

60' Wide Beam Cruiser Stern

£130,000

Constructed and fitted out to a high standard by Collingwood Boats in 2015, 'Orca Porca' is well equipped for self-sufficient living on the inland waterways – with the added benefit of a good sized second bedroom it would make a great home for a small family. The boat has received various upgrades during its current ownership, including new bow thruster batteries, solar panels, a new multifuel stove and bespoke canopy. We believe this vessel presents an excellent opportunity to acquire a comfortable living space. This boat is a great candidate for Marine Finance subject to a satisfactory survey. Viewings are available 7 days a week by prior appointment please.

BSC	13/02/2026
Builder	Collingwood Boats
